General info

Solid Hardwood Platform bed

This solid hardwood platform bed is part of our [Modular Collection](#). The name is for the fact that this solid hardwood platform bed is a simple bed, made of a few building blocks which can be transformed into any type of bed using additional pieces, which gives you a lot of choices. Size of this platform/daybed is Full extra long, which is also known as double extra long. Full XL has the same length as Queen size.

Color, or stain, is in Natural finish so it gives the look and feel of real wood.

This platform bed has a 40 inches headboard and an 18 inches footboard combination. We call this combination our [4018 model](#).

Headboard is Slatted style and it is a contemporary take on the traditional mission design.

We also have an additional headboard style for this platform bed which is Ultra-low. This Ultra-low headboard cannot be used as a building block to transform this platform bed into either a bunk or loft bed whereas the rest of the headboards can.

Usability

This Modular design solid hardwood platform bed provides you with zillion options of use and lots of possibilities in the future. This is because this platform is a configuration of a few individual parts. If

you wish to, you can add a few other pieces, sold separately, and convert this platform bed to a bunk bed or only use it as a bed frame.

Also, this [Platform bed](#) does not require the use of a [box-spring](#). You can use our modular design platform bed for kids, teens, and adults.

Solid Wood Frame

We use solid [hardwood](#) for this platform bed. Our factory uses Aspen, Maple, or Birch wood interchangeably for the production of this unit. To achieve maximum strength, we use premium knot-free hardwood for this platform bed.

Its slats are made of [plywood](#). They are about 2.5" wide and 2.5" apart from each other. Each slat comes with holes. So, you can secure every slat to the frame with two wood screws.

Underbed Storage

This collection offers a variety of underbed storage solutions. You can add a storage trundle under this platform bed, or a normal trundle bed for allowing an extra mattress. These items are independent units so you can add them later on if you choose to.

Headboard combinations

We have four other headboard height choices for this solid hardwood platform bed. We pair these headboard heights to make different bed combinations.

The bed combinations with the same headboard Low height such as the 31"31" model are known as '[core beds](#)'. These core bed frames are also useful as building blocks for daybeds, bunk beds and loft beds.

However, you can choose between a few other headboard combinations for your hardwood platform bed. The shorter headboard side makes the footboard.

Safety

This solid hardwood platform bed has an actual weight capacity of 400 lb. We have also successfully tested this platform bed with up to 800 lb in our factory but we recommend staying within the actual weight capacity.

Additionally, we use a wooden center support bar for our full size beds and a metal center support bar for extra long and queen size beds.

Note: If you are going to use this platform bed for younger kids, you can consider adding a front guardrail as well.

Assembly

We recommend two adults for the assembly of this Modular Design solid hardwood platform bed. It is super simple. No need to assemble the headboards, you just have to connect mattress rails, the guard rails, and slats. This hardware and the Allen key are included in the package but you will need to have a [Phillips screwdriver](#) additionally for the assembly.

Mattress

A standard size mattress fits this platform bed just fine. We recommend using a six or eight inches thick mattress for this platform bed, especially if you are planning to convert this platform bed to a bunk or loft later on.

For extra long versions, you will need an extra-long size mattress and bed sheets which are readily available.

Summary:

- Part of our Modular Design collection.
- The design allows you to modify your furniture as your needs evolve.
- Made from knot-free premium solid hardwood.
- Includes headboards, mattress rails and slats.
- Solid wood slats.
- Non-toxic low VOC finish.
- Add underbed storage to maximize space saving.
