General info

Futon Cover Synergy Baltic and Black

Cover is the last piece you need to choose in order to complete your futon sofa bed set which consists of a mattress, a frame and a futon cover. [Mattress](#) gives you comfort and [frame](#) gives structure to your sofa bed.

Futon cover is there to protect your mattress against wear and tear since the cover usually is made of thick fabric. Covers usually come in many colors and patterns so they add character to your room. Since the cover is removable and washable, it can also act as a slipcover.

Material

Most often, our futon covers are 100% polyester and sometimes they are from a blend of few materials. Majority of our covers are thick and sofa style so you can turn your mattress into a sofa. Polyester, for better or worse, is a very durable material. It lasts long and washes easy. Fabric you see, we use on the top surface as well as all four sides. Back of the cover where it rests on a futon frame is a different material and often in black cover. If you wish to have all six sides to have the same color fabric, please let us know as we can accommodate you and it will cost a little more to do that.

Cleaning

We recommend dry cleaning your futon cover but you sure can wash it at home as well. Just wash it in cold water and hang dry and do not use bleach or dryer.

As a Bed

Futon cover is generally a thick material and sleeping directly on that is not all that nice. You better put a layer of bedding, or sheet of fabric, to make it soft and also faster clean cycle.

Assembly

We use a three-side zipper on our futon cover for easy putting it on and off your mattress. You open the zipper all the way and open the cover similar to making a sandwich. Place your futon mattress on one open side and then flip the other side over and close the zipper. If your mattress is heavy, then you need to ask someone to help you.

Summary:

- Zippered on three sides for easy setup and removal.
- Concealed zipper for smooth, finished look.
- Dry clean or cold wash and hang dry.
- Top and four sides are the same color in the image you see.
- Back side is Black.
- 6" Side is standard. Thinner futons fit looser and thicker futons fit fuller.
- All sides the same color is possible upon request.

Delivery Time
2-3 Weeks

Warranty
1 year
